## EDUCATION

### University of Edinburgh

*First Class (Hons) MA Economics*

September 2020 - June 2024

## PROFESSIONAL EXPERIENCE

### Sir John Kay - St John's College, Oxford University

*Research Assistant*

London, United Kingdom

July 2024 - Present

- Assisted with the research and editing for a number of books projects, including *The Corporation in the Twenty-First Century* and *The Long and the Short of It*.
- Produced research for an academic group focusing on UK pension investment system reform.
- Contributed to expert witnessing work on appropriate long term discount rates in financial settlements.

### Amanda Solloway MP, Commissioner to HM Treasury

*Policy Caseworker*

London, United Kingdom

August 2022 - July 2024

- Researched local and national issues to draft policy responses to be used for communication with constituents.
- Liaised with government departments, local councils, and other organisations to coordinate ministerial work.

## INTERNSHIPS

### Scottish Fiscal Commission

*Summer Research Analyst*

Edinburgh, United Kingdom

May 2024 - July 2024

- Conducted data analysis and statistical modelling to identify long-term fiscal trends within Scotland.
- Produced an original report on the stability of Scottish healthcare expenditure, using stress-testing methods designed for both normal and non-normal distribution shocks.
- Used geospatial data from Public Health Scotland to produce visualisations of healthcare inequalities.

### Government Economic Service

*Assistant Economist*

London, United Kingdom

July 2023 - August 2023

- Assigned to the Transport Appraisal and Strategic Modelling team within the Department for Transport.
- Conducted cost-benefit analysis and network density simulation for several public sector projects.
- Built an online database of large-infrastructure projects and their associated statistical models.

### Institute of International Monetary Research

*Research Assistant*

Buckingham, United Kingdom

June 2022 - July 2022

- Collaborated with Dr. Juan Castañeda on a research project designed to investigate the feasibility of using nominal income targets in UK monetary policy.
- Utilized a variety of modelling techniques to analyse previous trends in UK inflation data.

## SKILLS & ACHIEVEMENTS

- **Emergent Ventures Fellow:** Stipendiary fellowship awarded by economist Tyler Cowen to supports entrepreneurs with highly scalable, “zero to one” ideas for meaningfully improving society.
- **CFA Investment Foundations Certificate:** 100-hour course covering the essentials of finance, ethics, and investing.
